OBJECTIVE

Motivated to secure a Full Stack Developer position in a fast-paced, innovative organization where I can leverage and enhance as well my skills in both frontend and backend technologies. I am eager to contribute to end-to-end software solutions, collaborate within cross-functional teams, and continuously expand my technical expertise while delivering scalable and high-performance applications.

WORK EXPERIENCE

January 2025 – June 2025

TELETECH PHILIPPINES – 5-ECOM CENTER (OJT)

- Technical Support: Provide end-user assistance for desktop systems, including troubleshooting hardware, software, and operating system issues.
- **System Setup and Configuration:** Install, configure, and maintain PC hardware and software, ensuring optimal performance and user accessibility.

SKILLS

Technical Skills:

- Proficient at using React.js to create dynamic and responsive user interfaces and React Native to create cross-platform mobile applications.
- Proficient with **Git** and **GitHub** for source code management and collaborative development.
- Experienced in designing user-friendly interfaces and wireframes.
- Backend development experience in server-side rendering and API development using Node.js and Next.js.

Soft Skills:

- Leadership and Team Collaboration
- Adaptability and work ethic
- Active Listener and Active Learner
- Time Management
- Critical thinking
